| VINIFICATION :     | Slow pressing of whole bunches, alcoholic and malolactic<br>fermentation with indigenous yeasts, ageing on lees in oak foudres<br>for 21 months before bottling.                                                                                                                                                                                                             |                         |
| ANALYSIS :         | 13,5 % alcohol, 4,9 g/l residual sugar, 9,2 g/l total acidity in tartaric<br>acid                                                                                                                                                                                                                                                                                            |                         |
| Type of wine :     | Dry mineral wine                                                                                                                                                                                                                                                                                                                                                             |                         |
| LABEL ARTIST :     | Pierre Klotz                                                                                                                                                                                                                                                                                                                                                                 |                         |
| TASTING NOTE :     | A complex wine, patience and time are required to appreciate it at<br>its true value. On the nose aromas of spices and ripe yellow berries.<br>Quite discreet in its young years, this wine is straight and tight in the<br>mouth, its power offers a very pleasant tannic structure. The richness<br>of this particular terroir brings a beautiful minerality to this wine. |                         |
| PAIRINGS :         | Choucroute with fish, shellfish and crustaceans, Bresse poultry,<br>Baeckeoffe, mature cow cheese                                                                                                                                                                                                                                                                            |                         |
| CONSERVATION :     | In the cellar between 5 and 20°C                                                                                                                                                                                                                                                                                                                                             |                         |
| Tasting :          | 12-14 °C, decant the wine before serving                                                                                                                                                                                                                                                                                                                                     |                         |
| AGEING POTENTIAL : | To drink or to keep. Potential 25 years                                                                                                                                                                                                                                                                                                                                      |                         |
